

Comfort Plugin

Daniele Antonucci, Eurac Research

Online, 11/06/24

INFINITE project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No **958397**

Aim

Why a plugin for energy and comfort?

Comfort plugin - Aims

- Hourly Evaluation of the building's performance both in terms of energy efficiency and thermal comfort using the ISO52016 through the python library : pybuildingenergy (<https://pypi.org/project/pybuildingenergy/>) and the ENCOME tool
-> recast EPBD
- Connection of geometric and performance information of the facade components manually or directly from the BIM using the Open BIM-P API.
- Assessment of possible improvements (Energy Conservation Measure) to be applied, considering energy, comfort, and economic aspects.

Comfort plugin – Virtual Demo Spain

Building characteristics

- C1** Roof 1: flat roof
- C2** Roof 2: flat roof
- S1** Floor 1: with crawl space

- F1** Façade 1: East
- F2** Façade 2: West
- F3** Façade 3: North
- M1** Adiabatic party wall 1

BUILDING TYPE

- Number of dwellings per floor: 4
- Number of floors: 4 floors
- Constructed area (1 dwelling): 72m² built
- Useful area: 61.2m²
- Useful area of common elements: 110.5 m² built.

Comfort plugin – Virtual Demo Spain

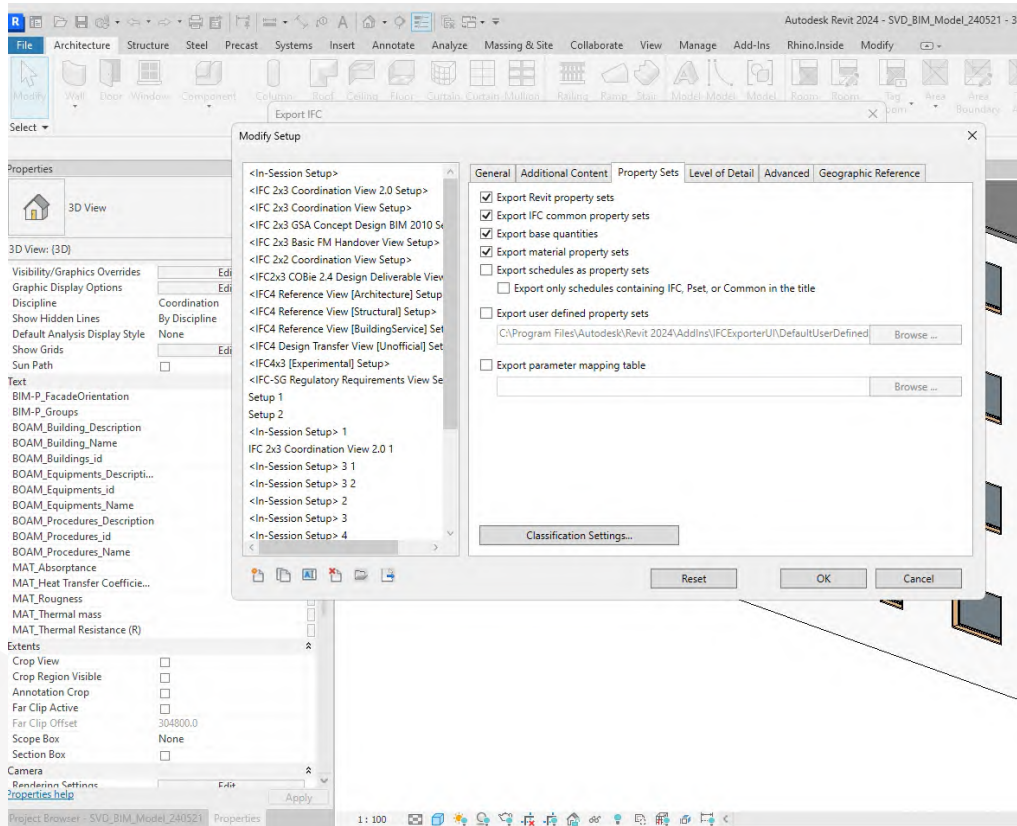

Modelling and BIM-P interaction

Taking the plans and elevations as reference, the building is modelled in Revit. Only the heated volumes are considered, leaving out the staircase

Comfort plugin – Virtual Demo Spain

Modelling and BIM-P interaction

ORIENTATION

U-VALUE

THERMAL MASS

SVD_BIM_Model_240521

Structural Usage	Non-bearing #266
Text	
BIM-P_FacadeOrientation	W #267
BIM-P_FacadeOrientation	W #267
MAT_Absorptance	0.9 #268
MAT_Absorptance	0.9 #268
MAT_Heat Transfer Coefficient (U)	1.64 #269
MAT_Heat Transfer Coefficient (U)	1.64 #269
MAT_Rougness	3 #270
MAT_Rougness	3 #270
MAT_Thermal mass	240932 #271
MAT_Thermal mass	240932 #271

Export of the model in IFC format and import into INFINITE BIM-p with verification of the parameters of the imported elements
